

No-Bake Cookies

Makes a Bizillion!

Ingredients:

2 cups sugar

1/2 cup whole milk (don't try to use anything less or you'll have a mess on your hands)

1/2 cup baking cocoa

1/2 cup peanut butter (crunchy is great, but you can use creamy)

1/2 cup margarine

In a sauce pan mix together 2 cups of sugar, 1/2 cup milk, and 1/2 cup cocoa.

Over medium heat, while stirring continuously, bring the mixture to a rolling boil.

Boil for 1 minute. Keep stirring.

When 1 minute is past, remove from heat.

Add in peanut butter and margarine.

Stir until both are completely melted.

Add 3 cups oats (not quick oats), stirring until incorporated.

Using a teaspoon or tablespoon (depends on how big you want the cookies), spoon out dollops of cookie onto wax paper.

Allow to completely cool before removing.
